Put your Instagram on your ads

Your book ads already run on Facebook. This adds Instagram. Five clicks, on a computer, signed in to Facebook as yourself. The pictures are from my account; yours will look the same.

---

1 Open this link and click your Instagram account in the list.

[Open the Instagram accounts page](). Not in the list? Click the blue **+ Add** at the top right, choose Instagram, and log in with your Instagram username and password. Then click it.

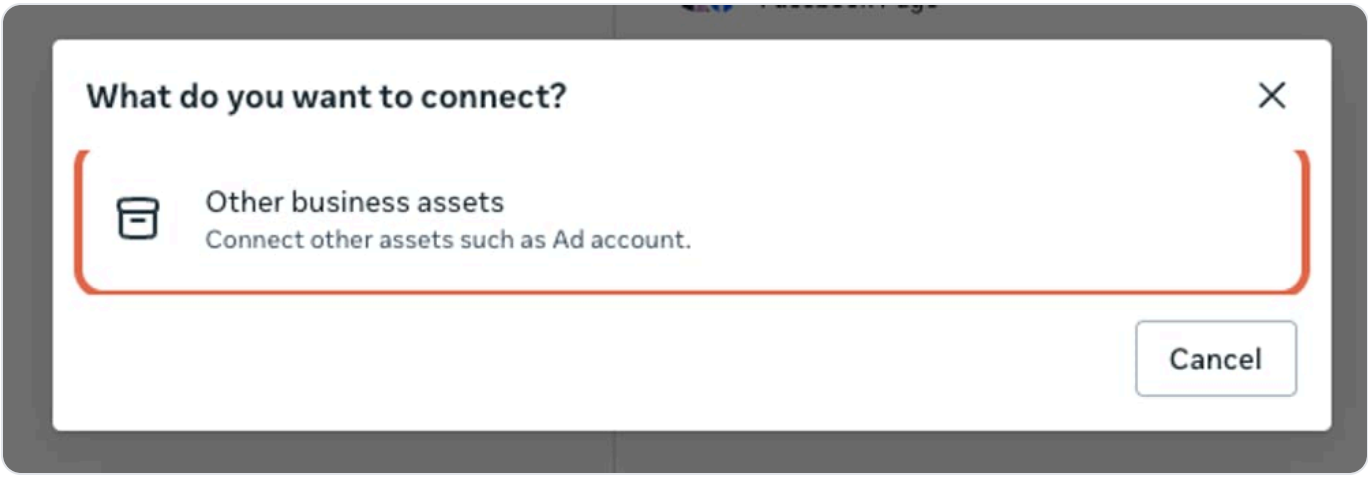

---

2 Click Connect assets.

It is the third button, circled in red.

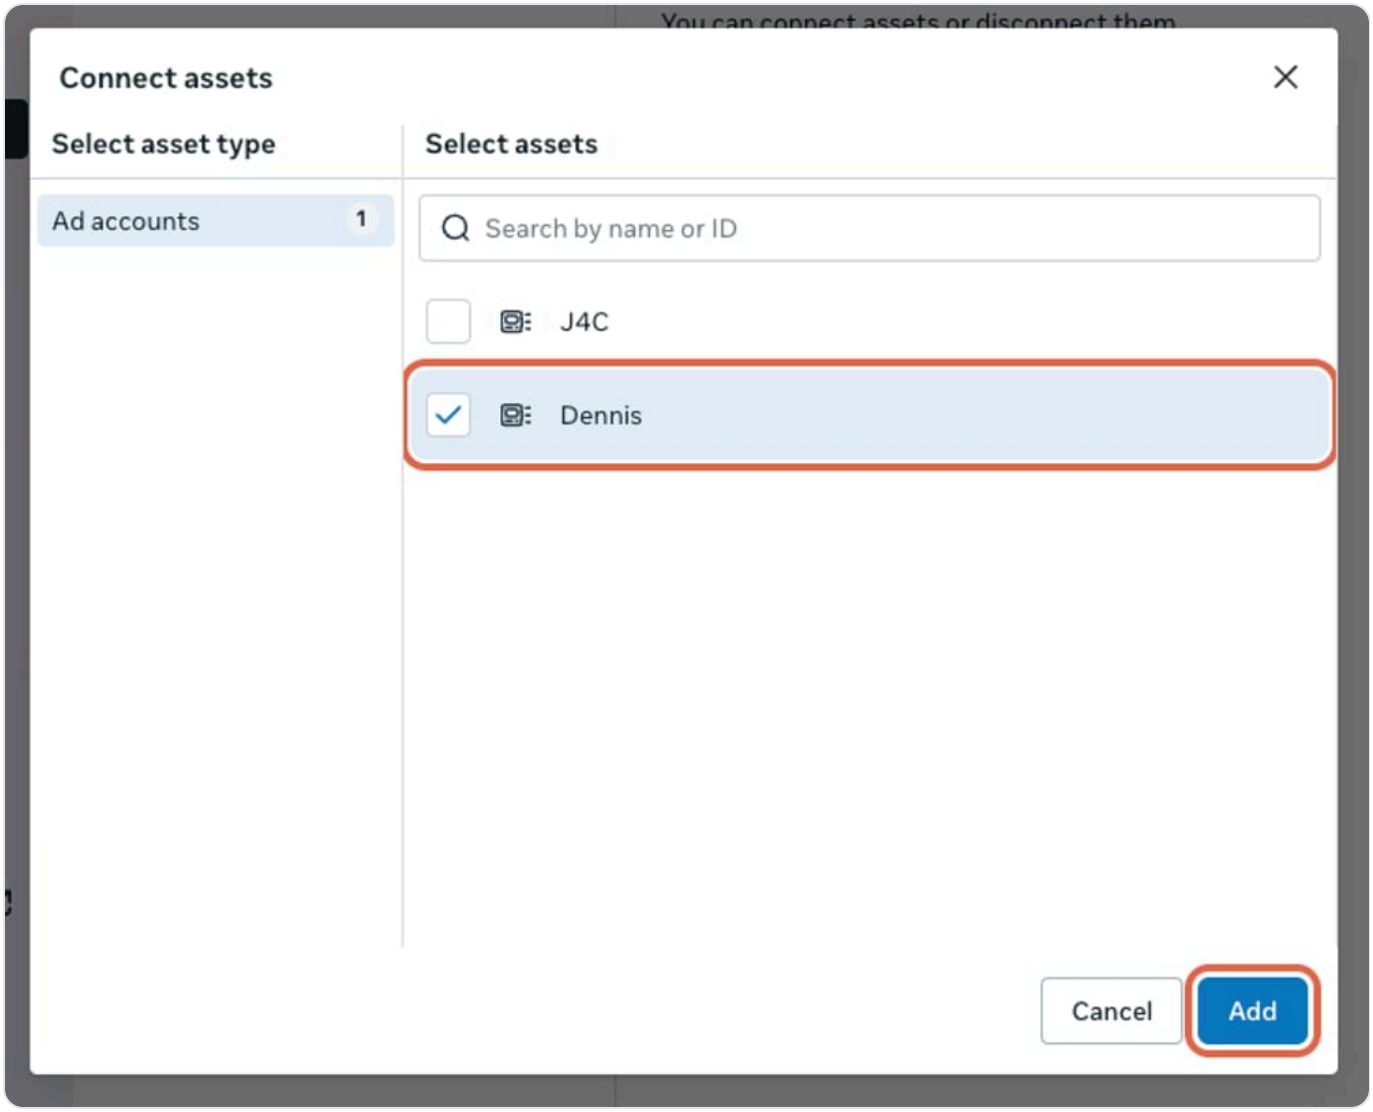

---

3 Click Other business assets.

4 Tick Castellino Photo, then click Add.

In my picture the ad account is called Dennis. Yours is Castellino Photo.

5 Done.

It now says **2 assets are connected**: your Facebook Page and your ad account. Text me and I will switch the ads to show your Instagram name.
